

# A NEW outlook on LIFE is available for millions of people taking Coumadin... Home INR Testing with the INRatio PT/INR Monitor.

## Stay Healthy...

**More Frequent Testing Increases Time in Therapeutic Range (TTR)<sup>1</sup>**

Home testing provides the opportunity for more frequent testing, meaning more data to give you and your doctor a clearer picture of your PT/INR levels over time. This additional information allows for more timely adjustments to your anticoagulation therapy, which means you stay healthier.

## Reimbursement...

Medicare covers home testing for Mechanical Heart Valve patients, and some private insurers now cover for additional indications such as Atrial Fibrillation. Check with your health plan administrator for details.

## No waiting...

**at the lab...**  
INRatio is ideal for patients who find going to the lab for testing inconvenient and time consuming.

**for results...**  
Get results in less than 2 minutes instead of waiting hours or even days.

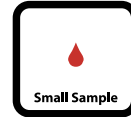

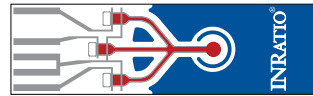

## Simple Procedure...

We understand that you want a simple, easy test. 3 basic steps is all it takes to get accurate results with INRatio.

1. Turn on INRatio
2. Insert Test Strip
3. Apply sample

## Advanced Technology...

### Small 1 Drop Sample Size

A small drop of blood from a fingerstick is all it takes to run the test.

### Individually Packaged Strips

Each INRatio strip is packed in its own protective sealed pouch, ensuring reliable performance of the strip on EVERY test.

### No Refrigeration Required

Store strips where you want and test when you want. With NO refrigeration testing is on your terms, whether traveling or at home.

### QC You Can See

Two Quality Controls are performed every time you test, giving you confidence that the results are reliable.

## User Friendly...

- Easy 3 button interface to change date, time
- Large, easy-to-read LCD screen
- Lightweight, portable size
- Comes with convenient carrying tote
- Powered by 4 AA batteries or optional AC adapter
- Memory stores 60 test results

## Be mobile...

INRatio is completely portable, allowing you to test your PT/INR levels when and where you want.

### Take INRatio on vacation...

No more worrying about finding a testing lab when you travel.

## Reasons more patients are choosing INRatio...

- **FIRST** to offer the reliability and stability of electrochemical technology in the PT/INR industry.
- **ONLY** product with two quantitative onboard quality controls for optimal confidence.
- **EASY** to follow test procedure with full word prompts

### What our customers are saying...

"So quick and simple to use...I love knowing the results instantly!"

"What a convenience....and PAINLESS!"

"Hooked on INRatio....it's so much better than going to the lab."
